Les Day told everyone that Water Solutions were scheduled to come in to add the chemicals to the water system to reduce the Manganese. He said that it would take up to a month to see if it works. He said that he needs to get approval from IDEM before the chemicals can be added. He has not received the documentation from IDEM yet. Once IDEM approves it, Les will have to hire a PE to monitor the system. He said it would probably be approximately \$3,000.00 to hire someone. The board members told Les to get quotes.

Les also told everyone that he has added extra chlorine to the water system to try and bring the rust down. Mayor Pavey said that the contractors that are building the new apartments have been using a hydrant meter to keep the dust down and that this may be part of the rust problem. Les said he forgot that contractors had the meter there.

Dale Gardner checked claims for the month. Dale motioned to approve the claims. Brian Bess seconded the motion. The motion carried.

During the Mayor's report, Mayor Pavey said that HWC's tentative date to come in and audit the Utilities' operations would be August 5, 2020.
